Background: Bihar Economy

Figure 1: Growth rate of sectors in Bihar

Sources: Central Statistics Office; PRS.

Average growth in Bihar's economy at constant prices (adjusting for inflation) witnessed a decline from 8.2% in 2005-10 to 7.8% in 2010-15.

Figure 1 shows the growth rate of individual sectors in the period between 2005-10 and 2010-15.

Over 2005-15, agriculture and services witnessed an increase in growth rate, whereas growth in the manufacturing sector saw a decline.

- Growth rate in the manufacturing sector decreased from 12.9% to 4.9%.
- Agriculture growth increased from 3.4% in 2005-10 to 3.6% in 2010-15.
- In the meanwhile, services sector growth increased from 8.9% to 10.4%.

60% of Bihar's economy is contributed by the services sector, followed by 23% by agriculture and 17% by manufacturing. The agriculture sector employed 56% of the state's population, followed by the services (36%) and manufacturing (8%) sectors.¹

Budget Estimates for 2016-17

- The total expenditure in 2016-17 is targeted at Rs 1,44,696 crore. The revised estimates for the total expenditure in 2015-16 was Rs 1,32,849 crore, which is 10% (Rs 12,164 crore) more than the budgeted target of 2015-16.
- The expenditure in 2016-17 is proposed to be met through receipts (other than borrowings) of Rs 1,24,608 crore and borrowings (excluding repayment of loans) of Rs 21,255 crore. Total receipts for 2016-17 (other than borrowings) are expected to be 24% higher than the revised estimate of 2015-16.

Other announcements:

- **Agriculture:** The government has budgeted to spend Rs 2,718 crore on agriculture in 2016-17, which is lower than the 2015-16 revised estimates by Rs 167 crore.
 - The state government aims to achieve self-sufficiency in production of seeds.
 - Check dams will be developed in southern Bihar.
- **Urban Development:** A framework is being developed to provide water pipelines to all the houses in the state.

Receipts in 2016-17

- The total revenue receipts for 2016-17 are estimated to be Rs 1,24,590 crore, an increase of 24% over the revised estimates of 2015-16. The tax to GSDP ratio is targeted at 5.32% in 2016-17, which is slightly more than the revised estimates of 5.26% in 2015-16. This implies that growth in collection of taxes has been higher than the growth in the economy.
- Tax revenue is expected to increase by 15.9% (Rs 4,074 crore) in 2016-17 over the revised estimates of 2015-16. Non-tax revenue is estimated to increase by 18.2% (Rs 362 crore).
- Grants from the centre are set to increase by 56.7%, from Rs 12,358 crore in 2015-16, to Rs 34,142 crore in 2016-17. The other component of transfers from the centre, which is the state's share in central taxes, is estimated to increase by 15%, to Rs 58,360 crore in 2016-17.

- Total tax revenue of Bihar is estimated to be Rs 29,730 crore in 2016-17. The composition of the state's tax revenue is shown in Figure 2.

Figure 2: Composition of Tax Revenue in 2016-17 (BE)

- **Tax Revenue:** Sales tax is the largest component of various tax sources of the state. Sales tax levied on the sale of goods in the state is expected to generate Rs 13,909 crore (47% of tax revenue) in 2016-17.
- The state is expected to generate Rs 7,211 crore (24%) through levy of tax on goods and passengers.
- In addition, revenue will be generated through levy of excise duty on the production of various forms of alcohol, stamp duties, registration charges on real estate transactions and electricity duties, among others.
- **Non Tax Revenue:** Bihar has expected to generate Rs 2,358 crore through non-tax sources in the year. Mining is the largest non-tax revenue source, which is expected to generate Rs 1,110 crore, an increase of 10% over 2015-16 (RE).
- Another major non-tax source of revenue is the interest payments received on the loans provided by the government, which is expected to generate Rs 368 crore, an increase of 17% over 2015-16 (RE).
- Others sources of non-tax revenue include tolls on roads and bridges, forests, electricity, industries, etc.

Deficits, Debts and FRBM Targets for 2016-17

The Bihar Fiscal Responsibility and Budget Management (FRBM) Act, 2006 provides annual targets to progressively reduce the outstanding public debt, revenue deficit and fiscal deficit of the state government.

Revenue deficit: It is the excess of revenue expenditure over revenue receipts. A revenue deficit implies that the recurring receipts of the government are unable to cover its recurring expenditures. However, the budget estimates a revenue surplus of Rs 14,649 crore (or 2.87% of state GDP) in 2016-17. This implies that revenue receipts were higher than the revenue expenditure. The estimate is within the target of eliminating revenue deficit, prescribed by the state's FRBM Act and by the 14th Finance Commission.

Fiscal deficit: It is the excess of total expenditure over total receipts. This gap is filled by borrowings by the government, and leads to an increase in total liabilities of the government. In 2015-16, fiscal deficit increased to 5.85% of the state GDP and is estimated to decline to 2.87% in 2016-17. The estimates for 2015-16 exceeded the 3% limit set under the FRBM Act and the 14th Finance Commission.

Outstanding Liabilities: It is the accumulation of borrowings over the years. In 2016-17, the outstanding public debt is expected at 18.89% of state GDP.

Table 5: Budget targets for deficits for the state of Bihar in 2016-17 (% of GSDP)

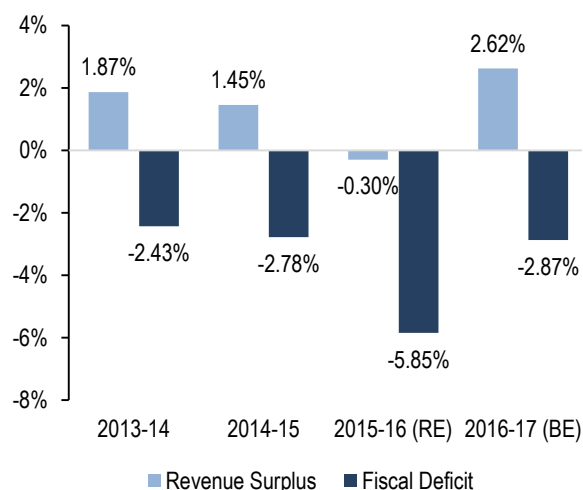

Year	Revenue Deficit (-)/Surplus (+)	Fiscal Deficit (-)/Surplus (+)	Outstanding Public Debt
2014-15	1.45	-2.78	18.54
