STATEMENT OF OBJECTS AND REASONS

The nuclear industry in India is growing and as a result of the steps taken particularly in the recent period, it is expected to form an important part of the energy-mix of the country. While making the design, and during construction and operation of nuclear power plants every care is taken to ensure safety of the plant, public and the environment. However, in the unlikely event of a nuclear incident or accident, there may be damage to individuals, property and environment on a large scale. The geographical scope of damage caused by a nuclear accident may not be confined to national boundaries and it may have trans-boundary effects. In such an event, it is desirable that protection is accorded to victims of such incident or accident by a third party liability regime. It is necessary to give compensation to persons if they suffer nuclear damage as a result of a nuclear incident and therefore it is important to make provision to ensure clarity of liability and the requirement to pay compensation.

2. At present, the nuclear power plants and facilities in India are owned by the Central Government or its Public Sector Undertakings. Therefore, any incident or accident that happens in these installations, and the liability issues arising therefrom, are the responsibility of the Central Government. This, however, leaves any trans-boundary liability to uncertainty. There is also a need to address the issue of nuclear liability during transport of nuclear material.

3. At the international level there are four instruments for nuclear liability, *i.e.*, the 1960 Paris Convention, 1963 Vienna Convention, 1997 Protocol to Amend Vienna Convention and 1997 Convention on Supplementary Compensation for nuclear damage. Convention on Supplementary Compensation was developed under the auspices of International Atomic Energy Agency and which deal with nuclear liability. It provides for treaty relations among all countries that accept the basic principles of nuclear liability law and an international fund to compensate nuclear damage in the event of nuclear incident. The said Convention on Supplementary Compensation envisages a two tier system with respect to the amount of compensation, *e.g.*, Installation State to ensure availability of the amount of compensation (at least 300 million Special Drawing Rights), and International Fund for which all contracting parties are obliged to contribute the amount based on a formula for calculation of contribution.

4. Convention on Supplementary Compensation is a free standing instrument open to all countries. It offers a country the means to become part of the global regime without having to become a member of the Paris Convention or the Vienna Convention. However, all countries party to the Convention on Supplementary Compensation are expected to abide by the basic principles of the nuclear liability law. For this reason, the Convention on Supplementary Compensation sets out a number of rules, which are consistent with the general principles of both the Paris Convention and the Vienna Convention. Any State willing to join the Convention on Supplementary Compensation will have to ensure that its national legislation is consistent with the provisions laid down in the Annex to Convention on Supplementary Compensation.

5. Many countries which are engaged in nuclear power generation are having their own legislations and some of them are parties to one or other international regimes.

6. India is not a party to any of the nuclear liability conventions mentioned above. Indian nuclear industry has been developed within the context of a domestic framework established by the Atomic Energy Act, 1962. There is no provision in the said Act about the nuclear liability or compensation for nuclear damage due to nuclear accident or incident and no other law deals with nuclear liability for nuclear damage in the event of nuclear incident.

7. It is, therefore, considered necessary to enact a legislation which provides for nuclear liability that might arise due to a nuclear incident and also on the necessity of joining an appropriate international liability regime.

8. The Bill seeks to achieve the above objectives.

Notes on clauses

Clause 2.— This Clause defines certain words and expressions used in the Bill including 'nuclear damage', 'nuclear incident', 'nuclear installation', 'nuclear material', 'nuclear reactor', operator, etc.

Clause 3.— This clause contains provisions for notification of nuclear incident. It requires the Atomic Energy Regulatory Board to notify nuclear incident within a period of fifteen days from the date of its occurrence and give wide publicity to the occurrence of such nuclear incident. However, the Atomic Energy Regulatory Board would not be required to notify nuclear incident where it is satisfied that the gravity of threat and risk involved in such nuclear incident is insignificant.

Clause 4.—This clause contains provisions relating to liability of operator. It, *inter alia*, provides that the operator shall be liable for nuclear damage caused by a nuclear incident occurring in that nuclear installation.

The sub-clause (1) contains provisions for liability of the operator in respect of a nuclear damage caused by a nuclear incident involving nuclear material coming from or originating in that nuclear installation before and after the operator has assumed the liability.

It also provides that where more than one operator is liable for nuclear damage, the liability of the operators so involved shall be joint and several if the damage attributable to each operator is not separable. However, the total liability of such operators shall not exceed the extent of liability specified in sub-clause (2) of clause 6 of the Bill. It also provides that where several nuclear installations of one and the same operator are involved in a nuclear incident, such operator shall, in respect of each such nuclear installation, be liable to the extent of liability specified in sub-clause (2) of clause 6 of the Bill.

Explanation to sub-clause (3) of this clause specifies the circumstances under which a person shall be deemed to be an operator.

Clause 5.—This clause provides for circumstances under which an operator shall not be liable for the nuclear damage. It provides that where a nuclear damage is caused by nuclear incident directly due to a grave natural disaster of an exceptional character or by acts of armed conflict, hostility, civil war, insurrection or terrorism, the operator shall not be liable. It further provides that the operator shall not be liable for any nuclear damage caused to (a) the nuclear installation itself or any other nuclear installation including a nuclear installation under construction, on the site where such installation is located; (b) any property on the same site which is used or to be used in connection with any such installation; (c) the means of transport upon which the nuclear material involved was carried at the time of nuclear incident. However, any compensation liable to be paid by the operator for a nuclear damage shall not have the effect of reducing the amount of his liability in respect of any other claim for damage under any other law for the time being in force. However, the operator shall not be liable (a) where a nuclear damage is suffered by a person on account of his own negligence; or (b) where a nuclear damage occurs from the acts of commission or omission of a person, to each person suffering such damage.

Clause 6.—This clause contains provisions relating to limits of liability. This clause provides that the maximum amount of liability in respect of each nuclear incident shall be the rupee equivalent of three hundred million Special Drawing Rights and the liability of an operator for each nuclear incident shall be rupees five hundred crores. However, it empowers the Central Government to increase or decrease, by notification, the amount of liability of the operator, having regard to the extent of risk involved in a nuclear installation but, such liability shall not be decreased less than rupees one hundred crore. It also provides that the amount of liability of the operator shall not include any interest or cost of proceedings.

Clause 7.—This clause contains provisions for the liability of the Central Government. It seeks to fix the liability on the Central Government in certain circumstances and provides that the Central Government shall be liable for nuclear damage in respect of a nuclear incident (a) to the extent such liability exceeds the amount of liability of the operator specified in sub-clause (2) of clause 6; or (b) where such nuclear damage occurs in a nuclear installation owned by it; or (c) occurring directly due to a grave natural disaster of an exceptional character or by acts of armed conflict, hostility, civil war, insurrection or terrorism.

Clause 8.—This clause imposes an obligation upon the operator to take out, before beginning the operation of a nuclear installation, insurance policy or such other financial security covering his liability as specified under sub-clause (2) of clause 6 and to renew the same. However, the Central Government shall not be required to take out such insurance or financial securities.

Clause 9.—This clause confers a right upon a person who suffers nuclear damage to claim compensation in accordance with the provisions of the this Act and claims for such compensation shall be adjudicated by one or more Claims Commissioners to be appointed by the Central Government.

Clause 10.—This clause contains provisions for qualifications for appointment as Claims Commissioner. It provides that a person shall not be qualified for appointment as a Claims Commissioner unless he is, has been or qualified to be a District Judge or is or has been in the service of the Central Government and has held the post of the Joint Secretary to the Government of India or any other equivalent post in the Central Government for a period of not less than five years and possesses special knowledge in law relating to nuclear liability arising out of nuclear incident.

Clause 11.—This clause contains provisions relating to the salary and allowances payable to and other terms and conditions of service of Claims Commissioner which shall be specified by rules to be made by the Central Government.

Clause 12.—This clause contains provisions for procedure to be followed by the Claims Commissioner and powers to be exercised by the Claims Commissioner for adjudicating such claims. The Claims Commissioner shall have certain powers which are vested in a Civil Court under the Code of Civil Procedure, 1908, for discharging functions under the proposed legislation. It, *inter alia*, provides that Claims Commissioner shall follow the procedure for adjudication of claims under the proposed legislation in the manner provided by rules to be made by the Central Government. The Claims Commissioner can associate experts in the nuclear field in the manner provided by rules for the said purpose.

Clause 13.—This clause contains provisions for inviting applications for claims by the Claims Commissioner. It provides that the Claims Commissioner shall, after the notification of a nuclear incident, cause wide publicity to be given for inviting applications for claiming compensation for nuclear damage.

Clause 14.—This clause specifies the category of persons who would be entitled to make application for nuclear damage. It provides that an application to the Claims Commissioner for compensation in respect of nuclear damage may be made by a person who has sustained injury or by the owner of the property to which damage has been caused or by the legal representatives of the deceased or by an authorised agent.

Clause 15.—This clause contains procedure for making applications before the Claims Commissioner. It provides that the application for compensation before the Claims Commissioner for nuclear damage shall be in the form and manner provided by rules to be made by the Central Government and such applications shall be made within a period of three years from the date of knowledge of nuclear damage by the person suffering such damage.

It contains provisions relating to procedure to be followed by the Claims Commissioner on receipt of application for compensation and the manner for making an award. This clause requires that the Claims Commissioner shall dispose of the application within a period of three months from the date of such receipt and make an award accordingly. However, while making the award, the Claims Commissioner shall not take into consideration any benefit, reimbursement or amount received by the applicant in pursuance of contract of insurance taken by him or for members of his family or otherwise. It also empowers the Claims Commissioner to grant temporary injunction to restrain the operator where he is likely to remove or dispose of his property with the object of evading payment by him of the amount of the award, from doing so. It also provides that every award, so made, shall be final.

Clause 17.—This clause contains provisions relating to right of recourse. It provides that the operator of a nuclear installation shall have a right of recourse where such right is expressly provided for in a contract in writing or where the nuclear incident has resulted from the wilful act or gross negligence on the part of the supplier of the material, equipment or services, or of his employee or where the nuclear incident has resulted from the act of commission or omission of a person done with the intent to cause nuclear damage.

Clause 18.—This clause contains provisions relating to extinction of right to claim. It provides that the right to claim compensation for any nuclear damage caused by a nuclear incident shall extinguish if such claim is not made within a period of ten years from the date of incident notified under sub-clause (1) of clause 3 of the Bill. However, where a nuclear damage is caused by a nuclear incident involving nuclear material which, prior to such nuclear incident, had been stolen, lost, jettisoned or abandoned, the said period of ten years shall be computed from the date of such nuclear incident, but, in no case, it shall exceed a period of twenty years from the date of such theft, loss, jettison or abandonment.

Clause 19.—It empowers the Central Government to establish a Nuclear Damage Claims Commission in certain cases. It provides that the Central Government may, if it is of the opinion that the amount of compensation may exceed the limit specified under sub-clause (2) of clause 6 of the Bill or it is expedient and necessary that claims for such damage should be adjudicated by the Commission instead of the Claims Commissioner or it is necessary in the public interest to provide special measures for speedy adjudication of claims for compensation, establish a Nuclear Damage Claims Commission.

Clause 20.—It provides for the composition of the Nuclear Damage Claims Commission which would consist of a Chairperson and Members, not exceeding six, to be appointed by the Central Government on the recommendations of a Committee consisting of Cabinet Secretary as Chairman, Secretary, Department of Atomic Energy and Secretary, Ministry of Law and Justice as Members. This clause further provides that a person shall not be qualified for appointment as the Chairperson of the Commission unless he has attained the age of fifty-five years and is or has been or qualified to be a Judge of a High Court. The appointment of a sitting judge of a High Court shall be made after consultation with the Chief Justice of India. Clause 46.—This clause provides that the provisions of the proposed legislation shall be in addition to, and not in derogation of, any other law for the time being in force and it shall not exempt the operator from proceeding against him under the provisions of any other law for the time being in force.

Clause 47.—This clause contains provisions for protection of action taken in good faith under the proposed legislation. It provides that no suit, prosecution or other legal proceedings shall lie against the Central Government or person or officer or authority in respect of anything done in good faith in pursuance of such proposed legislation or of any rule or order made, or direction issued, thereunder.

Clause 48.—This clause empowers the Central Government to make rules in respect of the matters specified in the said clause. The rules made by the Central Government shall be laid before each House of Parliament.

Clause 49.—This clause contains provision for power to remove difficulties. It provides that if any difficulty arises in giving effect to the provisions of this Act, the Central Government may, by order published in the Official Gazette, make such provisions, not inconsistent with the provisions of this Act, as appear to it to be necessary or expedient for removing the difficulty. However, no such order can be made under this section after the expiry of three years from the commencement of the proposed legislation. Further, every order made under this section shall, as soon as may be after it is made, be laid before each House of Parliament.

FINANCIAL MEMORANDUM

Person who suffers nuclear damage shall be entitled to receive compensation under this Act for any nuclear damage resulting from nuclear incident. For this purpose, clause 6 of the Bill proposes to fix the maximum amount of liability for a nuclear incident at rupee equivalent of three hundred million Special Drawing Rights and the liability of the operator at rupees five hundred crores per nuclear incident at present and empowers the Central Government to increase or decrease the amount of liability of the operator depending on the extent of risk involved.

2. Clause 7 of the Bill proposes to fix liability of the Central Government for nuclear damage resulting from a nuclear incident in the following cases—

(a) where the liability exceeds the amount of liability of an operator, to the extent such liability exceeds such liability of the operator;

(b) where the nuclear incident occurs in a nuclear installation owned by it; and

(c) where the nuclear incident occurs on account of grave natural disaster of an exceptional character or on account of act of armed conflict, hostility, civil war, insurrection or terrorism.

However, since the possibilities of such eventualities are very rare and the actual liability of the government in the event of a nuclear incident would very well depend on the magnitude of the incident, it would be very difficult to estimate the cost of liability at this stage.

3. Sub-clause (2) of clause 9 of the Bill empowers the Central Government to appoint Claims Commissioner for the purpose of adjudicating upon the claims for compensation in respect of nuclear damage and clause 11 thereof provides for the salary and allowances payable to and other terms and conditions of service of Claims Commissioner.

4. Clause 19 of the Bill empowers the Central Government to establish a Nuclear Damage Claims Commission under the circumstances specified thereunder and clause 22 thereof, provides for Salary and allowances payable to and the other terms and conditions of service including pension, gratuity and other retirement benefits of the Chairperson and other Members of the Commission.

5. Sub-clause (1) of clause 30 of the Bill empowers the Central Government to provide the Nuclear Damage Claims Commissioner with officers and other employees and sub-clause (2) thereof provides for the salary and allowances payable to and other conditions of service of such officers and employees.

6. It would be difficult to work out the exact expenditure, both recurring and non-recurring towards the establishment of Claims Commissioner and Nuclear Damage Claims Commission, as it can be determined only after their appointment in case of any nuclear incident.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 48 of the Bill empowers the Central Government to make rules for carrying out purpose of the Act. Such power to make rules, *inter alia*, includes (a) the other financial security which an operator of a nuclear installation may take for covering his liability under the Bill and the manner thereof; (b) the salary and allowances payable to and the other terms and conditions of service of Claims Commissioner; (c) the procedure to be followed by Claims Commissioner; (d) the person to be associated by Claims Commissioner and the manner thereof; (e) the remunerations, fee or allowances of associated person; (f) any other matter with respect to which the Claims Commissioner shall have the power of a Civil Court; (g) the form of application, the particulars it shall contain and the documents it shall accompany; (h) the salary and allowances payable to and other terms and conditions of service of Chairperson and other Members; (i) the powers of Chairperson; (j) the salary and allowances payable to and the terms and other conditions or service of officers and other employees of the Commission; (k) the form of application, the particulars it shall contain and the documents it shall accompany; (l) any other matter with respect of which the Commission shall have the power of a Civil Court; (m) the form and the time for preparing annual report by the Commission; and (n) the manner of transfer of officers and other employees of the Commission.

2. The matters in respect of which the said rules may be made or notification issued are matters of procedure and administrative detail, and as such, it is not practicable to provide for them in the proposed Bill.

3. The delegation of legislative power is, therefore, of a normal character.
